

KUDAKWASHE RUKUNI

FULL STACK SOFTWARE DEVELOPER

PROFILE

I'm a software engineer who specializes in web-oriented design and development. I focus on creating intuitive front-end user interfaces aimed at enhancing user experience through thoughtful UI/UX design. My technical skills include building web and mobile applications using React, React-Native or Flutter. I'm also well-versed in working with JSON data and integrating with REST APIs. I aspire to keep growing and evolve into a versatile software engineer capable of delivering reliable, scalable, and innovative solutions that address modern technological demands.

PORTFOLIO

You can view my Portfolio at
<https://portfolio-kudarukuni.vercel.app>

I've worked on projects such as the following:

- **Websites:** Landing pages, marketing pages, Blog sites, Enquiry forms and User Authentication forms.
- **Self-Service portals** For Utilities companies, Banks, Schools and a few Start-up companies
- **Dashboards** Admin dashboard design and development.
- **User Interface Design & Prototyping:** I've created Interactive Prototypes using Adobe XD and Figma.
